◻ The main goal of this application is to help you to tune and focus in your own subconscious mind, creating a feeling of harmony and balance without any intention from the conscious mind - in a way it can simply be called "understanding" the subconscious in-depth and organizing your life this way ◻ HypnoHD is not a magical tool to have superhuman self-control (not at all!) - in fact, the whole subliminal part of HypnoHD is about increasing your willpower and confidence. But more than that, HypnoHD has been designed to make your life more clear, simple and organised - by letting your subconscious mind work in a way which is beneficial to you. ◻ HypnoHD works the same way than a book written in a subliminal way: you simply read it at a very slow speed - and it's like the words are under your skin. ◻ HypnoHD is a very powerful tool to control and focus your life - and to achieve many other things as well ◻ HypnoHD comes with many simple tools to help you to achieve your goals faster. ◻ With HypnoHD you can easily design personalized messages and affirmations - like you have created an audio book which will work for you. ◻ HypnoHD is very powerful and universal - you can use it with any device and platform, including mobiles. ◻ Use HypnoHD anytime and anywhere to improve your everyday life. ◻ HypnoHD also includes an incredible set of advanced features and fine-tuning options to help you create super-strong affirmations and subliminal sounds. ◻ HypnoHD will improve your self-esteem and willpower, and can help you to get the energy and focus needed to improve your life in many other ways as well. ◻ HypnoHD is a universal tool and can be used with any type of people and on any type of life area. ◻ You can use HypnoHD at any time and any place. You don't need any permission from anybody else. ◻ HypnoHD has a time limit - you will only be able to use HypnoHD for a limited period of time, after which it will automatically stop. ◻ There are no timers - you can use HypnoHD as much as you want. ◻ HypnoHD has a daily focus area which you can easily select - by doing this, you
